Dokument mit ConSense IMS-Server am 3.8.2015, 7:47 Uhr

Return of defective parts

Although we exercise great care during the production of our products, it may be necessary to return a unit or accessory to the manufacturer.

In order to ensure the quick and economical processing of returns of centrifuges, spare parts, or accessories, we require complete and extensive information concerning the process. Please fill in the following forms completely, sign them, enclose them with the return package, and send them together with the product to:

Sigma Laborzentrifugen GmbH An der Unteren Söse 50 37520 Osterode (Germany)

1. Declaration of decontamination

As a certified company and due to the legal regulations for the protection of our employees and of the environment, we are obliged to certify the harmlessness of all incoming goods. For this purpose, we require a declaration of decontamination.

- The form must be filled in completely and signed by authorised and specialised personnel only.
- Affix the original form in a clearly visible manner to the outside of the packaging.

We will return the unit if no declaration of decontamination is provided!

2. Form for the return of defective parts

This form is for the product-related data. They facilitate the assignment, and they enable the quick processing of the return. If several parts are returned together in one packaging, please enclose a separate problem description for every defective part.

 A detailed problem description is necessary in order to perform the repair quickly and economically.

If the form does not include a description of the malfunction, neither a refund nor a credit note can be issued. In this case, we reserve the right to return the parts to you at your expense.

Upon request, we will prepare and submit to you a cost estimate prior to performing the repair.
 Please confirm such cost estimate within 14 days. If the cost estimate has still not been confirmed after 4 weeks, we will return the unit. Please note that you must bear the incurred costs.

The unit must be packaged in a transport-safe manner. Please use the original packaging, if at all possible.

If the product is dispatched to us in unsuitable packaging, you will be charged the cost for returning it to you in new packaging.

The forms can be downloaded online from $\underline{\text{www.sigma-zentrifugen.de}} \rightarrow [\text{Service}] \rightarrow [\text{Overhaul and repair}].$
